Walker St end of year

Studio end of year

From 2010 until 2011, I supplied paintings to adorn the local coffee shop; interchanging them as some pieces sold

From 2013 I have had works for sale at "Carrington's in Loch

From 2011, I have completed 3 works on commission

Due to illness and a succession of broken bones, my art practice petered to almost nil, save a few painting/printmaking exhibitions at Back Paddock Studios.

Last Year, (2018) I constructed a "bush setting" window display, with the focal point being a Silver Princess Gum tree made from egg cartons and papier mache, at the behest of Environment Victoria for their pop-up shop promoting environmental issues during the Victorian State Elections

From 1975-2009:

I've committed to many "set design " pieces, both painting and construction for numerous and varied theatre productions.
