

Went to Rmit,studied Illustrative Photography.Worked at various studios taking images for Advertising and Graphic design Agencies.Also took photographs for Fashion labels and Record covers.Worked in Melbourne,Sydney,Singapore ,UK and USA.,for about 25 years.Unfortunately the advertising Industry is quite ageist in Australia,so with more younger people coming through ,they want to work with people of a similar age, and similar views.Eventually it becomes difficult to get clients.

Ive gotten enthused in the last few years in shooting my own personal work, hoping other people will also identify with it. A new journey has begun, we'll see where it takes me...
